Etchworks

LVT

ETCHWORKS' luxury vinyl tile collection adds depth and dimension to a traditional flooring solution through sculptured textures reminiscent of hand scraped hardwoods. The result is a modern twist on a classic flooring solution that is both contemporary and inviting.

1 Style / 10 Colorways

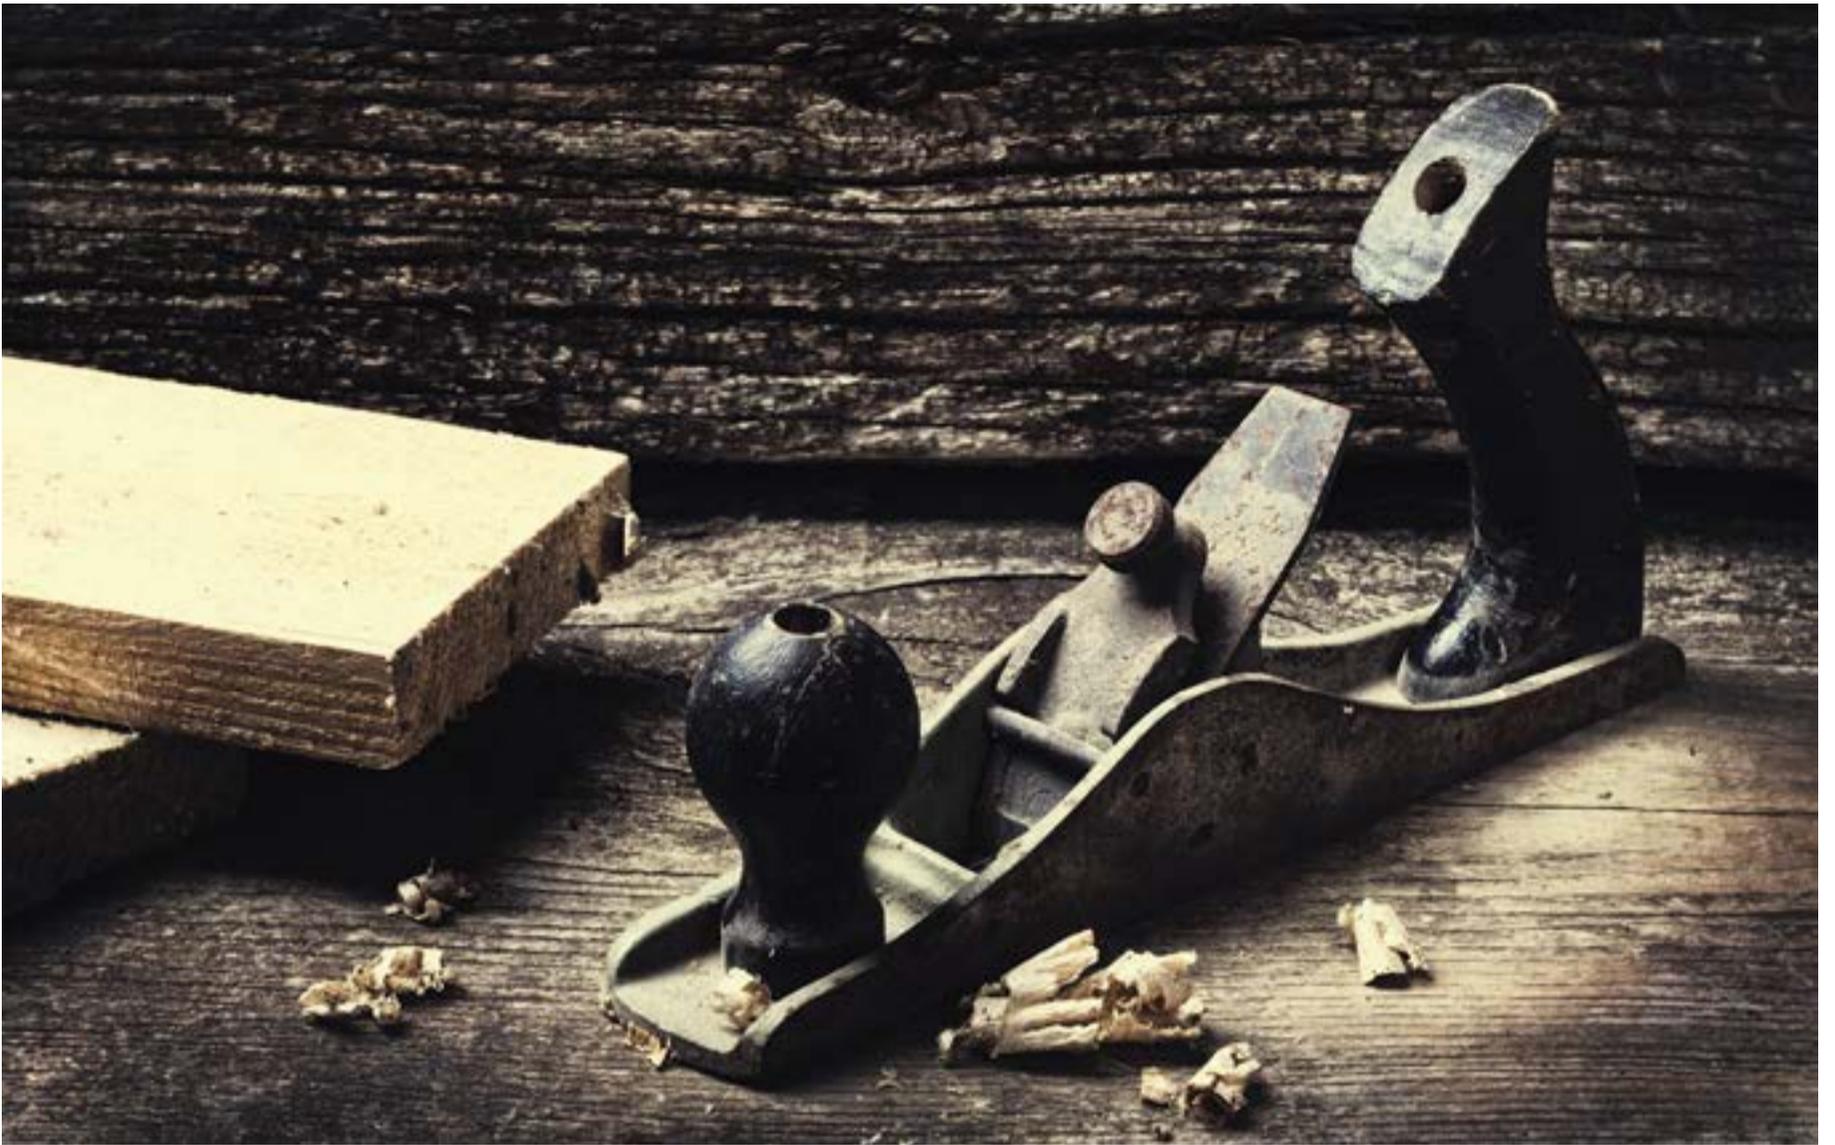

10 Colorways

Etchworks' inspiration is derived from the weathering of wood over time. Style decisions were inspired by the natural aging processes of driftwood, elder trees and reclaimed wood, while textures were influenced by deep gouges and scrapes.

INSPIRATION

Weathering

Worn and weathered wood creates exaggerated veins, natural whitewashing, and grunge-like coloration.

Scraping and Relief

The texturing is reminiscent of deep gouges in elder woods from exposure to the elements and man-made wear and tear, worn from overuse.
